

Oil and Gas Technical Work Group (TWG) Alaska Mitigation Advisory Group

Thursday, February 26, 2009
1:30 pm – 4:30 pm
BP Alaska Room # 146
Benson and Seward Highway

Agenda

- Roll Call / Introductions of any guests, or visitors - Dick
- How quantification works
 - A brief overview. How it is linked to the "fleshing out" the options
 - ICF's role -- Iterative process with the TWG members
- Questions/data needs for each option (see attachment Excel file– will discuss option by option)
- Developing a Schedule - List of activities going forward
 - Reasonable set of goals for next MAG meeting
 - Formation of "subcommittees" for each option--clarification of who is interested and/or responsible for each option (including those not attending or on the call)
 - Dates/Schedule--TBD:
 - Expansion or clarification of data needs, if necessary (by ICF)
 - Clarification/expansion of options, if needed, and data input from TWG members (to ICF)
 - Initial estimates (rolling) for TWG members to review
 - ICF delivers: Final estimates? Material for slides/templates?
- Public Input and Announcements
- Agenda, Location, Time and Date for Next Meeting (s) Group

Call in # - 800-315-6338 code 6494#
